Macronutrient Distributions for the IFM Food Plans

Core Food Plan

25% protein, 30% fat, 45% carbohydrate

Core Food Plan: Vegetarian and Vegan (with soy)

25% protein, 30% fat, 45% carbohydrate

Core Food Plan: Vegan (without soy)

20% protein, 30% fat, 50% carbohydrate

Cardiometabolic Food Plan

30% protein, 30% fat, 40% carbohydrate

Mito Food Plan

20% protein, 60% fat, 20% carbohydrate

The following Therapeutic Food Plans have no specific macronutrient distribution recommendations. The standard Core Food Plan macronutrient distribution (25P/30F/45C) is an appropriate option for all food plans listed below.

- Detox Food Plan
- Elimination Diet
- Low-FODMAP Food Plan
- Anti-Candida Food Plan
